

Heighten security and deliver true business value with Microsoft Sentinel and Performanta

Discover why **Microsoft Sentinel** is the SIEM of choice for businesses like yours and find out how you can experience Performanta's reinvention of cyber security with our **SAFE platform & 24/7/365 Security Operations Centre** – available now with our Proof of Value (POV) offer.

Microsoft Sentinel

Many organisations are struggling to find the SIEM solution that works for them. This is only reinforced by the fact that:

Over 50% of organisations are concerned with their current solutions visibility

46% of organisations are unhappy with costs in relation to the service providedⁱ

If these struggles resonate with you, look no further than **Microsoft Sentinel**.

Microsoft Sentinel is more than just an alert system, it offers a dynamic SIEM experience and is fast becoming the security solution choice of organisations the world over.

With a return on investment (ROI) of **201%**

48% reduction in costs compared to legacy SIEM solutions, it is easy to see whyⁱⁱ

By providing a birds-eye view across your entire organisation's ecosystem, its success lies in its ability to transform massive datasets into actionable insights, providing a real-time understanding of potential threats that may not always be readily obvious. Furthermore, beyond just detecting risks, it crafts a proactive defence strategy to stop hackers dead in their tracks.

With automation and orchestration features that streamline repetitive tasks along with its overall scalability and adaptability to evolving security needs, **Microsoft Sentinel** is almost certainly the answer that you have been frantically looking for.

Would you like to leverage the full power of **Microsoft Sentinel** with the support of an accredited partner boasting over a decade of experience? Performanta is ready and waiting to help, filling knowledge gaps within your existing IT team and freeing up valuable time for them to put down the day-to-day security stresses and maximise their productivity.

Performanta:

The perfect partner for Microsoft Sentinel

Performanta operate a 24/7/365 Security Operations Centre (SOC), strategically located in the UK and South Africa, providing real-time incident feedback, trend analysis, and visibility into clients' environments.

By leveraging advanced threat hunting methodologies, such as "big bucket" and MITRE ATT&CK hunting, and employing automated playbooks, we enhance detection rates while reducing Mean Time to Detect (MTTD) and Mean Time to Respond (MTTR). This approach also allows us to gain a comprehensive whilst understanding of what techniques hackers are using.

Not only that, but the Performanta SOC seamlessly integrates four pillars that are essential to delivering an effective SOC for our clients:

- Continuous incident response
- Threat intelligence
- Development & automation
- Engineering

About Performanta

Founded in 2010, Performanta is a leading Microsoft Solutions Partner for both Modern Work and Security, with Security Specialisations in Identity and Access Management, and in Threat Protection. Performanta became one of the world's first FastTrack Ready Security Partners (FRSPs) and joined the Microsoft Intelligent Security Association (MISA), placing Performanta firmly as a leader in the cyber security space. Performanta has also achieved Microsoft-verified MXDR solution status.

As an award-winning Managed Cyber Security Service Provider, Performanta has been pioneering cyber safety, working tirelessly to achieve two things for our clients: lowering the risk and limiting the impact of a successful cyber attack. We work with large and small clients across the world and are experts in cyber security and cyber safety. Our Microsoft Consultancy.

Managed Sentinel SOC and MDR teams are experts in their fields, and our services are essential to our customers in today's world where cyber threat is greater than ever.
